

LED CHIP NICHIA

LED MODULE WITH EXTERNAL DRIVER PHILIPS

Ref. 705001425430	36°	800 lm	250mA	3000°K
Ref. 705001425432	36°	750 lm	250mA	2700°K
Ref. 705001425433	36°	850 lm	250mA	4200°K
Ref. 705002425430	60°	800 lm	250mA	3000°K
Ref. 705002425432	60°	750 lm	250mA	2700°K
Ref. 705002425433	60°	850 lm	250mA	4200°K

- Power: 10W
- Input: 220-240V 50/60Hz
- Electrical class: class II
- No dimmable
- Colour: 2700°K / 3000°K / 4200°K
- CRI: Ra → 92
- Power factor: 0,5 P.F.
- LED aperture: 36° / 60°
- Aluminium painted in gray. White ring. Plastic reflector, chrome bath.

SAFETY:

- The LED module should be installed on a clean, flat assembly surface to ensure that acceptable operating temperatures are not exceeded.
- Device sensitive to electrostatic discharges (ESD). Handle with care in order to avoid such discharges.
- The LED module should be installed by a qualified technician.
- This product should only be used for lighting purposes. Incorporate use model in lamps.
- Active parts should not be accessible to consumers.
- Store in a dry, covered place
